TECHNICAL SUPPORT OF THE NATIONAL POLICE OF UKRAINE AND THE WAYS OF ITS IMPROVEMENT IN MODERN CONDITIONS

The article deals with the organization and implementation of technical equipment of the National Police of Ukraine in modern conditions. The main problems that have arisen at present are identified and need to be solved. One of the principal ways of maintaining the necessary level of ensuring the protection of human

rights and freedoms, combating crime, maintaining public order and public safety in Ukraine is the technical equipment of the National Police of Ukraine with modern models of special equipment and vehicles using the unique innovative potential of the industrial complex of Ukraine. Effective use of developments in the field of creation of special and specialized equipment and vehicles for the technical equipment of the National Police of Ukraine is possible only with targeted state support and the introduction of incentive mechanisms, including: an adequate state budget, the provision of concessional loans, tax incentives, customs privileges, etc.

Among the necessary conditions for effective industrial use of scientists in the field of creating special and specialized equipment and vehicles is also providing training of qualified personnel, attracting potential investors, expanding cooperation opportunities and creating appropriate networks, improving patent protection, increasing the level of innovative culture and the like.

Given and classified the main problems of technical support of the National Police of Ukraine and ways to solve them, it is advisable to take into account when forming a strategy for the development of special vehicles.

Based on the analysis of the technical support of the National Police of Ukraine in modern conditions and the existing scientific and methodological apparatus, it is reasonable organizational and technical recommendations aimed at improving its effectiveness.

Keywords: technical support, National Police of Ukraine, samples of special equipment and vehicles.
